Work

6+ Years of Experience

Sep 2017 - Mar 2019

UI UX Designer at Ineight India Pvt Ltd

- Industry: **Construction Tech**
  1. Collaborated in an Agile environment to lead end-to-end UX efforts for construction workers and site managers.
  2. Conducted on-site user research and usability testing to ensure solutions fit real-world conditions and workflows.
  3. Created wireframes and interactive prototypes grounded in research insights and user stories.
  4. Regularly performed heuristic evaluations and UI audits, offering actionable recommendations to developers.
  5. Worked with business analysts and product teams to interpret specs and align design with business goals.
- 📈 **Impact:** Research-driven UX enhancements boosted on-site efficiency and led to higher product adoption among workers.

Jul 2019 - Feb 2021

UI UX Designer at RockInterview

- Industry: **EdTech / Career Development**
  1. Led a complete redesign of the mobile app, handling the full UX process from research to delivery.
  2. Created detailed wireframes, interactive prototypes, and ran usability tests to improve the journey.
  3. Used design thinking to tackle major pain points in onboarding and test preparation flows.
  4. Incorporated user feedback and modern UI patterns across mobile and web platforms.
- 📈 **Impact:** The redesign led to a sharp rise in downloads and engagement, strengthening the app's position in the EdTech space.

Feb 2021 - Feb 2023

UI UX Designer at iSteer Technologies

- Project: **Etrack**
  1. Designed wireframes and task flows focused on user needs, following a user-centered design process.
  2. Led concept testing, usability studies, and analyzed feedback to refine and validate designs.
  3. Applied principles of design psychology and interaction patterns to improve usability and structure.
  4. Built intuitive UI components and collaborated closely with developers for efficient handoff.
  5. Performed regular UI audits to enhance design consistency and visual coherence across screens.
  6. Presented design ideas effectively to both stakeholders and developers to ensure smooth delivery.

Mar 2023 - May 2024

Senior Creative - UI UX at NeoSOFT Technologies

- Client: Decathlon Play (Mobile App & Website)
  Industry: Sports/Entertainment
  1. Designed campaign pages across platforms (web, mobile, mWeb) to support events and boost engagement.
  2. Redesigned the New Booking Experience, increasing conversions by 15–20% and reducing churn by 4–5%.
  3. Created user flows, wireframes, and prototypes grounded in user needs and business objectives.
  4. Used design thinking to guide a user-centric approach throughout the product redesign process.
  5. Collaborated with developers and QA teams to implement and test designs for consistency.
  6. Helped rebrand the Vitamin Play design system, ensuring a unified visual language.
  7. Conducted usability testing to validate solutions and improve the experience based on real feedback.

- .📈 **Impact:** Improved booking flow led to better retention, product stability, and higher booking success rates.
